

# Our Eleventh Stolen Static Caravan is Safely Recovered

## Autometrics in this case did not need to dispatched a radio finder

Radio signal finders, will where required, use hand-held radio direction receivers to pickup and then home-in on the Autometrics MTrack's audibly silent secret RF radio finding frequency. This is also used when no GPS signals are jammed or blocked from satellite view.

## Autometrics recover their 11th Stolen Static December 2014

Autometrics 24/7 customer monitoring contacted the owners of a static caravan to confirm their van had been stolen from a caravan site in Birmingham on 11th December 2014.

The Autometrics MTrack had self alarmed when the van was removed from site. This was the 11th successful

The Autometrics MTrack Stolen Vehicle tracking system is the preferred choice for many caravan owners as it is especially suited to the higher protection needs of caravans and mobile homes.

Essex Police attended the site and arrested a known wanted criminal.

The owner was contacted and arranged for the van to be collected a few hours later.

Autometrics protect over 500 static caravans across the country. These theft statistics indicate that approximately 1% of protected static caravans are stolen every year, and as most statics will be around for 25 years this represents a 1 in

This unique tracking system has self powered or powered options.

The advanced three layer location technology enables any asset to be tracked and recovered even in the most challenging environments. Such as underground car parks, in the back of a van or inside a shipping container.

stolen static recovery by Autometrics in less than 36 months.

The self powered Autometrics MTrack device had been covertly hidden in the van by the owners back in November 2011. Then after 3 years of silently protecting and monitoring the vans location it immediately triggered into action during the theft.

The Autometrics system received a series of accurate GPS positions, they contacted AVCIS (ACPO Vehicle Crime Intelligence Service) to email the exact van location to liaise Essex Police to plan a recovery.

Ultimately the Autometrics MTrack being self powered and covertly hidden has always been up to the job

This remarkably 11th static find, returning a £70K static back to it's rightful owner with the support of the Essex police with a 100% caravan recovery record demonstrates why Autometrics' could reasonably claim to provide:
